# ABOUT

The Wholeness Project was created with a deep understanding of the significant impact that aesthetic environments can have on patient well-being and recovery. At Earth Garden Flower Shop, we firmly believe in the power of beautiful flowers to create a sense of tranquility, elevate mood, and promote healing. Our passion for fostering holistic care and wellness inspired us to initiate this philanthropic project.

## OUR VISION

The vision of the Wholeness Project is to transform healthcare spaces into havens of healing and well-being by infusing them with the beauty and serenity of natural elements. We envision a future where hospitals are not only centers of medical treatment but also nurturing environments that prioritize the holistic well-being of patients.

## OUR MISSION

Our mission is to heighten awareness about the profound impact of aesthetics on patient well-being and expedited recovery. By generously donating luxurious flower arrangements to hospitals, our aim is to cultivate healing environments that nurture patients' emotional and physical wholeness.

# WHOLENESS

WE WANTED TO PROVIDE A MEANS TO POSITIVELY IMPACT THE PATIENT EXPERIENCE IN HOSPITALS BY INTRODUCING LUXURIOUS FLOWER ARRANGEMENTS TO PATIENT ROOMS AND COMMON AREAS

WE RECOGNIZED THE NEED TO RAISE AWARENESS ABOUT THE THERAPEUTIC BENEFITS OF BEAUTIFUL PLANTS & FLOWERS IN HEALTHCARE SETTINGS

WE FIRMLY BELIEVE IN THE IMPORTANCE OF HOLISTIC HEALING THAT ENCOMPASSES BOTH PHYSICAL AND EMOTIONAL WELL-BEING BY INCORPORATING LUXURIOUS FLOWER ARRANGEMENTS INTO HEALTHCARE ENVIRONMENTS
